📍 Pune

## SUMMARY

Dedicated and versatile technology enthusiast with a passion for exploring the dynamic landscape of technological evolution. Proficient in various domains, including game development, UI/UX design, web development, and app development. Specialized in creating cutting-edge websites, I consistently strive to broaden my skill set and knowledge base. Adaptable and quick to learn, I actively seek opportunities to contribute to diverse projects. As a collaborative team player, I bring a valuable blend of technical expertise and effective communication skills, ensuring seamless integration within a team environment. Eager to leverage my skills and passion for technology in an internship role, where I can make meaningful contributions and continue to expand my professional capabilities.

## EXPERIENCE

10/2023

Pune

### • Design and Production Team member

#### TEDxPVGCOET

A non-profit college organization

- Restructured website architecture, achieving a remarkable improvement from 70% to 98%, optimizing both functionality and user experience.
- Elevated Gtmatrix grade from C to A, showcasing a commitment to optimal performance.
- Crafted engaging and visually appealing social media posts, demonstrating a keen eye for design and effective communication strategies. Enhanced customer website user experience: improved user engagement by 15%, achieved 3x growth in website traffic and achieved 5% increase in conversion rate for online customers.

08/2023

Pune

### • Graphic Designer

#### Google Developer Student Clubs

University based community groups for students interested in Google developer technologies.

- Elevated social media engagement by 15% through the creation of visually compelling posts showcasing technology facts and stories, demonstrating a strategic approach to content design and audience interaction.
- Successfully completed eight Google Study Jam sessions on 8th Generation Artificial Intelligence (AI) labs, showcasing a commitment to continuous learning and proficiency in cutting-edge technologies.
- Organized and contributed to online events, concurrently taking charge of designing promotional posts for comprehensive event marketing.

University | 2023.**

## PROJECTS

**YelpCamp Campground Website | <https://yelpcamp-ck6i.onrender.com/>**

 09/2023  Pune

A website which include a user-friendly interface for browsing camps, the ability to create and manage personalized campsites, an interactive map for location visualization, and a robust user authentication system for data security.

- Designed and developed YelpCamp, a comprehensive website dedicated to facilitating the global camping community. Utilizing HTML, CSS, JavaScript, and Node.js, the platform allows users to explore, create, and review campsites worldwide.
- Achieved optimal performance for the YelpCamp website, attaining an A grade in Gtmetrix with impressive metrics of 98% performance and a flawless 100% structure.
- Leveraged expertise in utilizing APIs, including Mapbox and Cloudinary, to seamlessly integrate advanced features and functionalities into the development of the YelpCamp website.

**TEDxPVGCOET Website | <https://blueheart0065.github.io/TEDxPVGCOET/>**

 12/2023  Pune

A dynamic website for TEDxPVGCOET, featuring an interactive event panel, team showcase, organizational information, and thematic elements.

- Significantly enhanced the website's structure by 28% compared to the previous version, concurrently elevating performance by an impressive 25%. Demonstrated a commitment to optimizing both design and functionality for a seamless user experience
- Utilized HTML, CSS, and JavaScript in collaboration with a cross-functional team of four individuals to collectively contribute to the successful development and implementation of the project.
- Revamped the user interface of an existing website using Figma, demonstrating a keen eye for design, and seamlessly implemented the redesigned interface into the website for an enhanced user experience.

## ACHIEVEMENTS

**Hactoberfest 2023 | Digital Ocean | 2023**

- Hacktoberfest is an annual worldwide event held during the month of October. The event encourages open source developers to contribute to repositories through pull requests (PR).

**Smart India Hackathon Round 1 | 2023**

Smart India Hackathon (SIH) is a nationwide initiative to provide students a platform to solve the pressing problems of Ministries and Departments of the Government, industries, and other organisations
